MEET THE BEARERS
BEARERS

I have to make a division of the scene where Adam and Matt were in the woods and get around for a time. Matt shows a family of the time trying to escape from. Adam then jumped down and started the bear with his knife. After that Matt finished the bear with his own knife. They had killed the bear. When Adam went back and told his family what happened, they invited Matt to their village for a hunt to celebrate. This brought Matt closer to Adam and his family.
